

## Silver-Based Antimicrobial Technology

Fusion | Promessa | Ultraleather™ Plus

### Healthcare Safe

Free of Heavy Metals, our Silver antimicrobial agent is naturally bonded to our resin mixture. It's these silver ions that prove to reduce microbial growth by over 99%.

### Infusion

Not a “topical treatment”, our antimicrobial agent is infused into the resin mixture and will not “wash off” for the life of the product. In fact, Ultrafabrics Ultra Surfaces can be disinfected and cleaned using a 5:1 water and bleach solution without affecting the antimicrobial ingredient's performance.

### Earth Friendly

Greenguard Certified® for indoor air quality. Cleans easily without the need for harsh toxic cleaners. Manufactured with a process that captures and recycles 99% of all solvents used in production.

### 100% Polyurethane

Free of PVC, Plasticizers, Stabilizers, POPs (Persistent Organic Pollutants), BPA (Bisphenol A), DEHP (Diethylhexyl Phthalate), Heavy Metals, PFC (Perfluorinated Chemicals) and meets the most stringent VOC (Volatile Organic Chemicals) standards.

### Third Party Certification

California Protocol 01350, Oeko Tex Standard 100 for Harmful Substances, RoHS, PAH and GreenGuard® Compliant, Contributable Credits towards LEED® Certification.

### Durable

Designed for superior longevity and engineered with special strengthening components to meet and exceed heavy-duty industry endurance standards.

### Stain Resistant

With our stain resistant technology, most spills and stains clean easily with a mild detergent and water, or bleach and water solutions.

### Soft

The soft and supple hand is a joy to touch, adding an always welcome bit of luxury to your day.

### Water Repellent

Formulated to shrug off water and prevent most stains from ever setting in.

### Climate Control

Exceptionally Resistant to the effects of temperature changes – stays cooler and more pleasant to touch in warm environments and resist stiffening and cracking in the cold.

### ULTRA SURFACES. ULTRA RELEVANT.
