

Workplace

The Future of Comfort

Durable and comfortable enough for high-functioning work environments, Ultrafabrics is a trusted choice of industry leaders. Our ultra-soft, colorful, and innovative textures can be used across the modern workspace.

Our Sustainable Future

Ultrafabrics are forward-thinking materials that are manufactured responsibly with people and planet in mind. Low in VOCs and free of toxic products, our fabrics are safe for everyone, so you can breathe easily.

- 01** Reach compliant
- 02** Indoor Advantage Gold certified
- 03** Japanese mill is ISO 14001 certified
- 04** Free of PFOA, PVC, plasticizers, flame retardants, and formaldehyde

Material Innovation

We're shaping the future of high-tech performance materials where sustainability is built-in. Beauty, performance, comfort, sustainability - there's no need to compromise.

Volar Bio

Proudly touting a 29% USDA BioPreferred Program Label, Volar Bio includes renewable materials that reduce our dependence on finite resources.

TENCEL™ Modal Fibers

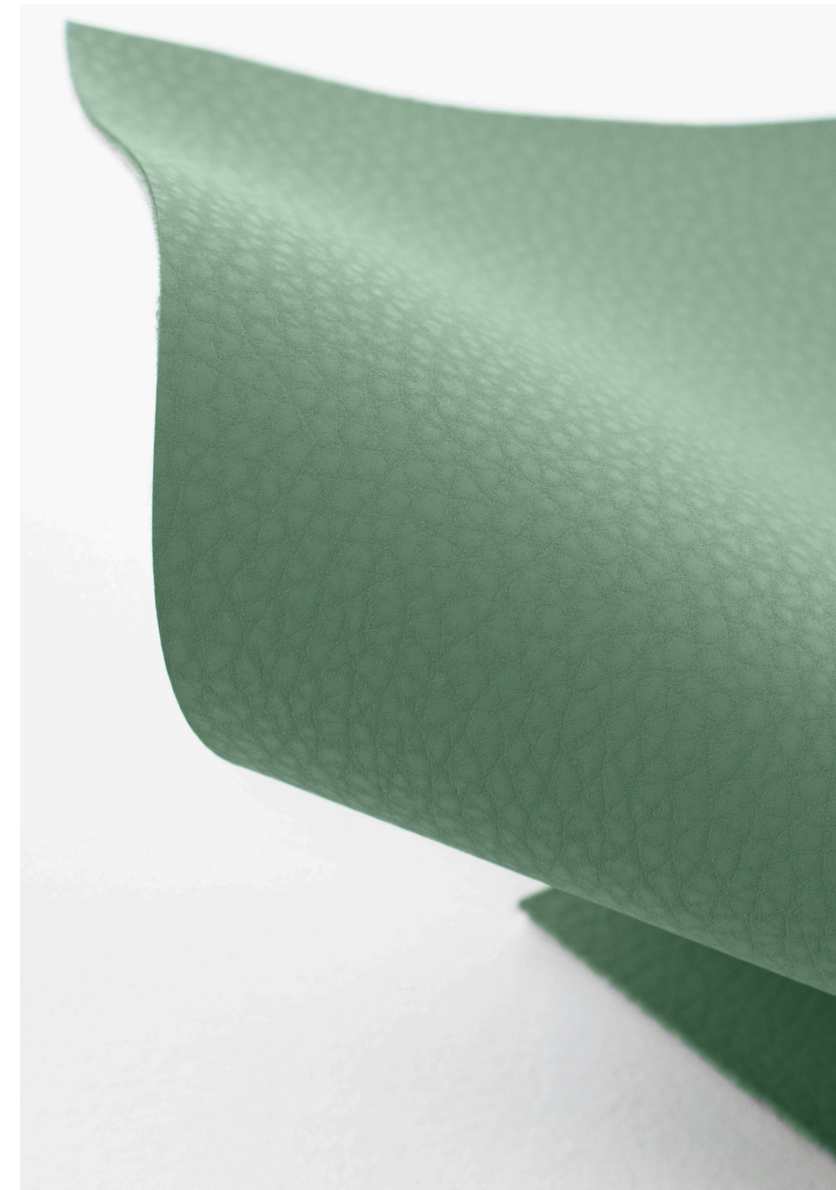

Ultrafabrics are the first and only polyurethane materials to incorporate TENCEL™ Modal fibers, which are included in 30% of our portfolio.

Sustainable & Recycled Yarns

A growing number of our collections include recycled polyester and sustainably sourced rayon fibers in their backcloth including Brisa, Brisa Distressed, and Promessa.

Every yard with this blended backcloth contains approximately 8 recycled plastic bottles.

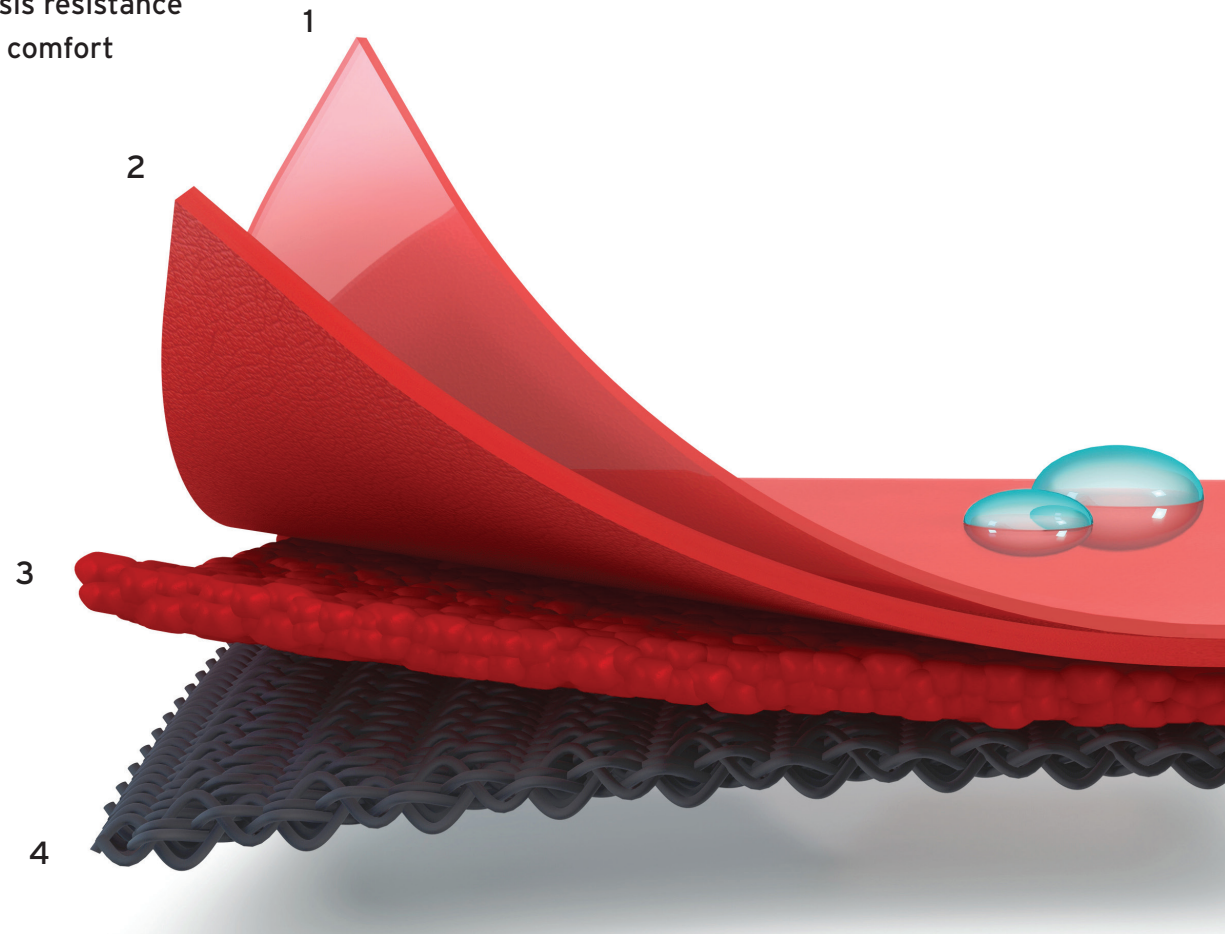

TENCEL™ is a trademark of Lenzing AG

Crafted Intelligence

Decades of Japanese craftsmanship is embedded in every Ultrafabrics material. Our proprietary Takumi™ Technology reflects the hands-on process in which our products are developed, from concept to application.

- 01 Premium polycarbonate construction
- 02 Featured collections achieve 16 weeks hydrolysis resistance
- 03 Inherent thermal comfort

1 Protective Surface Layer 2 Topskin Layer 3 Climate Regulating Microfoam 4 Backing

Elevate Your Vision

With a selection of sumptuous and functional materials, Ultrafabrics are thoughtfully created to complement any workspace.

Privacy Spaces

The workplace is always changing. We've gone from cubicles to open-space planning, highly functional spaces to collaborative hubs. Now we are moving to a more agile workplace where there is more flexibility, remote working, and private spaces for those who need to work quietly or in smaller groups.

Remote Working

Remote work is here to stay. Working from home, or other spaces, provides employees with the perks of flexible schedules and better lifestyles.

Lounge Areas

The easiest way to shift mindset is to create environments that celebrate human connection. Incorporating leisure spaces, recreational areas, and casual lounge seating combinations will bring employees back together in home-like settings.

Sound Absorption

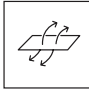

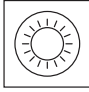

Managing noise levels in the workplace is important, and a well-designed acoustical space will promote productivity and help employees feel more comfortable.

Solutions

We're pioneering advanced features that elevate standards in comfort, convenience, longevity, and sustainability.

Functional

Acoustics 	Designed with acoustically transparent properties, our acoustics materials help provide a sound solution when paired with Novawall acoustical wall systems. Suitable for ceiling and wall panels, space dividers, and furniture.	<ul style="list-style-type: none"> • Brisa • Brisa Distressed • Fresco
Antimicrobial 	Constructed to inhibit the growth of bacteria and other surface pathogens, these collections are engineered with an EPA-registered antimicrobial agent.	<ul style="list-style-type: none"> • Coast • Pumice • Summit
Breathable Comfort 	Engineered with a proprietary ventilation system that enhances softness and promotes air circulation for the highest level of comfort.	<ul style="list-style-type: none"> • Brisa • Brisa Distressed • Brisa Forecast • Brisa Frontier • Fresco
Ink & Stain 	Designed for dynamic spaces, this proven solution unites repellency and cleanability without sacrificing style.	<ul style="list-style-type: none"> • Reef Pro • Ultraleather Pro
Outdoor Living 	Crafted to defend against mildew, bacteria, and other microbes, these durable materials resist water and withstand fading to provide lasting defense, no matter the season or forecast.	<ul style="list-style-type: none"> • Brisa Forecast • Brisa Frontier • Coast • Pumice • Summit

Environmental

Biobased Ingredients 	Supporting our sustainability goals, these materials incorporate wood pulp and corn-derived resin that reduce our dependence on finite resources.	<ul style="list-style-type: none"> • Volar Bio
Recycled Water Bottles 	These materials contain an estimated 8.3 recycled plastic bottles per yard, which conserves natural resources, diverts waste from landfills, and uses less energy.	<ul style="list-style-type: none"> • Brisa • Brisa Distressed • Brisa Forecast • Coast • Fresco • Promessa • Summit • Wired
Renewable Fibers 	Manufactured with environmental impact in mind, these materials' backcloths contain inputs sourced from non-endangered, certified, sustainably managed forests.	<ul style="list-style-type: none"> • Eco Tech • Pearlized • Ultraleather • Ultraleather Pro

Introducing Uf Select

Impasto • Lino • Montage

Artist-inspired tones and textures. An array of timeless and on-trend hues. Quality and comfort endorsed by Ultrafabrics.

Uf Select brings it all together – with faster delivery and competitive pricing.

- 01** Crafted in North America
- 02** Quick ship available for 25 colors
- 03** Polycarbonate blend provides excellent durability
- 04** Easy cleaning and care
- 05** 2 year Warranty
